## Annual Leave

Wherever possible, annual leave should be taken during the pre-planned shutdown dates. This is to ensure learners are able to use their holiday allocations during their time with the AMRC Training Centre without impacting on their progress. This should be discussed and agreed by their employer in advance.

**Please note:** All classroom based delivery has been developed and structured to ensure this model can be moved to full classroom based, face-to-face delivery, on-site at the AMRC Training Centre as soon as the latest government guidance permits and it is safe to do.
